

Partnerships for Permanence (P4P) Collaborative Partnership program: Leaders Changing the System (LCS) Advisory Network

Leaders Changing the System (LCS) Network Advisory Group is made up of dedicated, passionate, "proximate leaders" with personal and professional experience in child welfare. Amplifying the voices of Black/African Americans with lived experience is an essential ingredient for child welfare reform that addresses the disparities that Black families currently experience within the child welfare system.

LCS Advisory Network is a unique culturally specific lived experience professional resource network for child welfare decision-makers and stakeholders to partner and collaborate for system reform and policy changes.

Growing Together Youth and Adult Summit (#GTYS 24):

Thursday, August 8th, 2024, from 10:00 am - 3:00 pm at P4P Office – Town Square Tower Conference Room – 445 Minnesota Street St. Paul, MN 55101. Register before August 1st via email at info@partnershipsforpermanence.org for the LCS Summit. This is an event for young adults, parents, and professionals. CEUs will be provided upon request.

Youth and Adult Summit Theme and Description

Improving outcomes for foster youth and adults with foster care and adoption lived experience.

- LCS Network Advisors envision a transformational gathering for youth and adult partners to develop a circle of support, teach life skills/future planning, and share meaningful resources to heal from the past and grow together stronger.
- This leadership summit seeks to motivate and elevate young leaders and seasoned professionals with lived experiences impacted by foster care and adoption to affect change within the system.
- An opportunity for youth and adults with lived experience to share with each other their common experiences as a powerful tool to inform future system change.

- Engage young adults, parents, and professionals using a reflective approach to identify limitations and challenges that hold people back, including barriers to success and future planning.
